SUMMARY

Full-stack developer with experience building web applications, member portal features, and integrations. Works with JavaScript, React, Next.js, PostgreSQL, Python, and Java, with a focus on reliable user experiences and maintainable systems.

EXPERIENCE

Full-Stack Developer | TimeRich Sep 2026 - Present

- Built the Superhuman Accelerator checkout and onboarding flow, connecting ThriveCart purchase webhooks with Notion and Google Sheets through Cloudflare Workers.
- Implemented account-level curriculum and session progress using Supabase PostgreSQL and authenticated Worker endpoints, allowing members to retain progress across browsers and devices.
- Developed a guarded portal passcode email workflow with test mode, recipient controls, and duplicate-send tracking; added automated tests for the workflow.
- Redesigned the Content OS page and packaged LinkedIn tools; audited the member portal on desktop and Android and reported progress-tracking issues.

Software Developer Intern | HelportAI Philippines Jun 2026 - Aug 2026

- Developed an internal asset management system using Next.js, React, TypeScript, Prisma, and PostgreSQL, including responsive and reusable interface components.
- Updated and migrated PostgreSQL schemas with Prisma; supported application deployments on Vercel and cloud-hosted databases.
- Used Cursor and Antigravity to support implementation and debugging.

PROJECTS

Finance Autopilot | Next.js, Python, FastAPI, PostgreSQL, Redis Jul 2026 - Aug 2026

- Built an AI-powered personal finance agent using OpenAI tool calling, with risk scoring and a human approval workflow backed by ARQ and Redis.
- Created a hash-chained audit trail with scheduled verification and a WebSocket feed for agent proposals, approvals, and execution events.
- Defined agent tools for transaction categorization, transfers, and anomaly detection, with dead-letter handling for repeatedly denied actions.

agLugan | Java, Spring Boot, React Native, PostgreSQL Jan 2025 - May 2025

- Developed a full-stack mobile application with REST APIs, Google OAuth2, JWT authentication, and WebSocket communication.

EDUCATION

Mariano Marcos State University | BS in Computer Science Aug 2023 - May 2027
Laoag City, Ilocos Norte, Philippines

TECHNICAL SKILLS

Languages: Java, Python, TypeScript, JavaScript, SQL, HTML/CSS

Frameworks and tools: React, React Native, Next.js, Node.js, FastAPI, Spring Boot, Express, Prisma, SQLAlchemy, Tailwind CSS

Platforms and technologies: PostgreSQL, Supabase, Cloudflare Workers, Redis, Docker, Git, Vercel, AWS, WebSocket, JWT
